

MANOHAR CHAWADA

React Native Developer | Mobile & Web Applications

+91-7974576828 • Manoharchawada01@gmail.com • linkedin.com/in/manohar-chawada-7976311b7 • Indore, India

PROFESSIONAL SUMMARY

Results-driven React Native Developer with 3 years of experience building and deploying high-performance mobile and web applications for Android and iOS platforms. Sole developer responsible for 4 production-grade applications including a full-featured OTT streaming platform, a football community app, and a social web platform — all successfully published on Google Play Store and Apple App Store with a 100% first-submission approval rate. Proven expertise in live streaming (Agora SDK, AWS IVS), payment systems (Stripe, in-app purchases), and real-time features using Firebase. Recipient of the Game Changer Award 2025. Currently expanding into full-stack development with Node.js and Express.js.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3

Frontend & Mobile: React Native, React.js, Next.js

State Management: Redux Toolkit, Context API

Backend & Databases: Node.js (Learning), Express.js (Learning), Firebase Firestore, Firebase Authentication

APIs & Integration: REST APIs, GraphQL, Axios, Postman

Streaming & Payments: Agora SDK, AWS IVS, Stripe, In-App Purchases (Android & iOS)

Dev Tools: Git, GitHub, VS Code, React Navigation, React Hook Form

Deployment: Google Play Store, Apple App Store

WORK EXPERIENCE

React Native Developer

Ideal It Techno Pvt. Ltd., Indore, India | May 2023 – Present (3 Years)

IQONS – Football Community App

React Native · TypeScript · Firebase · Redux Toolkit · Google AdMob

- Architected and delivered an end-to-end football community mobile application, driving user engagement through real-time content feeds, community interaction, and push notifications.
- Integrated Google AdMob for in-app advertising, generating a passive revenue stream for the product.
- Sole developer responsible for submission, review management, and live deployment on both Google Play Store and Apple App Store, achieving 100% first-submission approval rate.

Veels – OTT Streaming Platform (Android & iOS)

React Native · TypeScript · Firebase · Agora SDK · AWS IVS · Stripe · Redux Toolkit

- Engineered a full-featured OTT platform from scratch supporting movies, web series, music, podcasts, and short-form video (Reels), serving diverse media consumption needs.
- Designed and implemented a dual live streaming architecture: low-latency internal streaming via Agora SDK and scalable external broadcasting via AWS IVS.

- Built a complete monetization ecosystem including virtual gifting, Stripe bank integration, coin redemption system, and iOS/Android in-app purchases for premium content.
- Optimized media loading and caching strategies within the React Native app, reducing content delivery latency and improving overall user experience.
- Managed full App Store lifecycle — development, QA, submission, and deployment on both Google Play Store and Apple App Store.

Second Appraisal – Car Insurance Claims App

React Native · TypeScript · Firebase

- Built a mobile claims management application enabling users to file car insurance claims by capturing accident photos, vehicle details, and incident narratives through a guided UI flow.
- Designed intuitive multi-step form components using React Hook Form with validation, reducing claim submission errors and improving data accuracy.
- Integrated secure REST API communication with the backend claims processing system, ensuring reliable and safe data transmission.

Swingist – Social Web Platform

Next.js · React.js · Firebase · REST APIs

- Developed a comprehensive social web platform featuring news feed, stories, events, live streaming, real-time chat, groups, and pages — comparable in scope to a full social network.
- Implemented real-time messaging and media sharing using Firebase Firestore listeners, achieving sub-second message delivery.
- Leveraged Next.js Server-Side Rendering (SSR) and Static Site Generation (SSG) for improved SEO performance and faster initial page load times.

EDUCATION

Bachelor of Engineering – Electrical Engineering

Prestige Institute of Engineering Management & Research, Indore | Aug 2018 – Jun 2021

AWARDS & ACHIEVEMENTS

- Game Changer Award 2025 — Awarded by Ideal It Techno Pvt. Ltd. for outstanding individual contribution, leadership in project delivery, and exceptional technical performance.
- Deployed 4 production-grade applications across Android and iOS platforms with a 100% App Store approval rate on first submission.
- Independently built a complete OTT platform with dual live streaming, multi-payment gateway integration, and in-app purchases — a feature set typically requiring a full engineering team.
- Delivered real-time systems at scale using Agora SDK and AWS IVS in live production environments, serving active concurrent users.
